Population Covered: 3,205,958
Tobacco 21 Since: July 1, 2020

TOBACCO
~~eighteen~~ twenty-one

The Preventing Tobacco Addiction Foundation evaluated all current statewide Tobacco 21 laws for their alignment with best practices that lead to effective prevention of youth initiation of tobacco and nicotine products.

ENFORCEMENT

GRADE: B

Designated Enforcement Agency

Best Practice: Health Department or Designated Agency

Utah Enforcement: Utah's Health Department is the designated enforcement agency

Age Verification

Best Practice: Before distributing any tobacco product, the tobacco retailer or the tobacco retailer's agent or employee shall verify that the purchaser is at least 21 years of age. Each tobacco retailer or tobacco retailer's agent or employee shall examine the purchaser's government-issued photographic identification if the purchaser appears to be under 30 years of age.

Utah Enforcement: Identification verification is not required in state code

Who is the Penalty Placed on?

Best Practice: The primary burden for sales to underage purchasers should fall on the retailer who is profiting from the sales of the product and not the purchaser or non-management employee.

Utah Enforcement: Penalty placed on retailer, clerk, and "Person"

Number of Compliance Checks

Best Practice: Provide authority for the state, county, or municipality to inspect tobacco retailers for compliance with MLSA 21 and a mandated minimum number of annual compliance checks. Model recommends two per year for every tobacco retail establishment.

Utah Enforcement: Utah conducts two compliance checks per retailer per year

Compliance Checks Done With Underage Decoys Aged 18-20

Best Practice: The designated agency shall conduct compliance checks by engaging persons between the ages of 18 and 20 to enter the tobacco retail establishment to attempt to purchase tobacco products.

Utah Enforcement: Decoy age is not specified

LICENSING

GRADE: C

Statewide Tobacco Retail License

Best Practice: A comprehensive tobacco retail license allows states and municipalities to regulate all tobacco retailers, fund enforcement programs, and create a penalty structure that suspends or revokes a license for retailers that continue to violate a MLSA 21 law.

Utah Licensing: Utah has a statewide comprehensive Tobacco Retail License

Tobacco Retail License Program Funds Enforcement

Best Practice: The fee for a tobacco retail sales license shall be set and used to cover the administrative cost for licensing administration, education and training, retail inspections, and unannounced compliance checks. The tobacco retail sales license fee should not exceed the cost of the regulatory program authorized beyond the statute/ordinance.

Utah Licensing: Utah's statewide Tobacco Retail License fee is not specifically dedicated to fund enforcement

Tobacco Retail License Fee

Best Practice: An effective licensing system requires tobacco retailers to pay an annual license fee and allows it to be periodically adjusted. Fee must be adequate to cover License administration, education/training, and enforcement. An annual fee of lower than \$300 is generally inadequate to fund a licensing program.

Utah Licensing: Utah's statewide Tobacco Retail License fee is a one-time fee of \$30 and a renewal fee of \$20 every two years

PENALTIES

GRADE: B

Penalty Type

Best Practice: Establish a civil penalty structure for violations rather than a criminal penalty structure.

Utah Penalties: Utah places a criminal penalty on the "person" who sold to the underage youth and a civil penalty to the owner of the store

Violation Accrual Period

Best Practice: 36 months

Utah Penalties: Utah has a 24-month violation accrual period

Monetary Penalty and Suspension Structure

Best Practice:

1st violation = \$500

2nd violation = \$750 and (7) day suspension

3rd violation = \$1,000 and (30) day suspension

4th violation = \$1000 and (3) year suspension

Utah Penalties:

1st Violation = \$500 fine

2nd Violation = \$750 fine

3rd Violation = \$1,000 fine and suspension of license for up to 30 days

4th Violation = Suspension of license for a year

Does the Law Penalize Youth for Purchase, Use or Possession

Best Practice: An evidence-based, best practices tobacco MLSA 21 policy should focus penalties on the tobacco retailer who profits from the illegal sale rather than the youth who is likely addicted to the product. PUP laws may be unlikely to reduce youth smoking significantly.

Utah Penalties: Utah penalizes youth for purchase and possession of tobacco product

PREEMPTION

GRADE: F

Does Preemption exist, was it added, or expanded

Best Practice: Local governments have a critical role in reducing the deadly toll of tobacco by regulating sales and restricting youth access to these products to prevent use and addiction. Tobacco 21 legislation should not introduce new tobacco control preemption, nor expand existing tobacco control preemption, and instead should be used as an opportunity to assert local authority or repeal existing tobacco control preemption.

Utah Preemption: Utah added preemption to its Tobacco 21 law specific to age of sale and marketing

DEFINITIONS

GRADE: A

Definitions

Best Practice: A comprehensive definition will cover all current, known tobacco and nicotine products, which include not only cigarettes, cigars, and smokeless tobacco, but also products like pipes, rolling papers, electronic smoking devices, and other related devices. A strong definition will also be broad enough to capture future products.

Utah Definitions: Utah's Tobacco 21 law includes comprehensive definitions
